The South Carolina Department of Health and Environmental Control (DHEC) will hold a public meeting to discuss the application for **construction** permits for URRC at the time and place above. At this meeting:

- We will provide information on the permitting process and application;
- The applicant will provide information on the proposed expansion;
- There will be opportunities for questions and answers; and
- We will take your comments on the draft construction permits for this facility.

Please note that this meeting is being held to inform and consult with the public about the construction permits ONLY and is separate from the public hearing being held on July 11, 2006 at 6:00 p.m., also at Fairforest Middle School.

We understand that there are other issues of concern with this proposed expansion, but this is the issue under our consideration at this time. After we receive and consider public comment on the draft permits we will make a final decision on this particular application.
